

## Protecting your RV!

Since 1986 Vantec RV Care has been Australia's foremost system of "Protecting Your RV".

Vantec NextGen treatments offer the latest in coating systems for both the exterior & interior of your RV.

# Vantec NextGen

With a glass-like finish.

### A Enduring Gloss Like No Other

- Deepest glass like finish- locked in for life.
- Nano Ceramic Quartz Technology.

### B Durability, Resilience & Hardness

- Ultimate durability and hydrophobic properties means your RV is tougher than ever.
- Vantec NextGen creates a stain resistant barrier that's super tough and durable - inside & out.
- Tested to 9h on Mineral Hardness Scale. Ultimate durability and abrasion resistance.
- Stain, corrosion, acid & alkali resistant. Hydrophobic surface is easy to clean.
- Protects from UV damage & environmental pollutants.

### C Total Interior Protection

- Enduring protection for all your interior soft furnishings including leather and leathette.
- Resists staining from drink and food spillages.
- Liquid rolls off the bonded hydrophobic coating.
- Easy clean ups that keep RV's looking their best and helps to retain value.

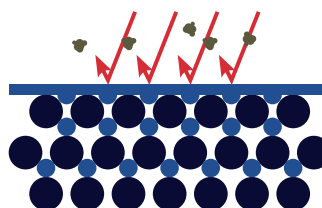

### Ultimate Gloss, Ultimate Protection

Vantec NextGen is the ultimate surface coating

- Available in both interior & exterior applications for complete protection

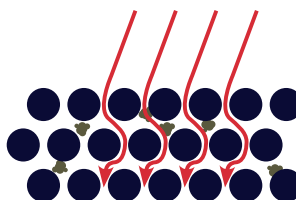

9h result on the Mineral Ordinal Hardness Scale (MOHS) is 4 to 5 times harder than most paint protectors

## How NextGen Works

### TREATED WITH VANTEC NEXTGEN

Surfaces treated with Vantec NextGen Paint Sealant will be sealed to prevent UV rays, road grime and salt air from penetrating the surface and maintains that showroom finish.

### WITHOUT VANTEC NEXTGEN

Surfaces not treated with Vantec NextGen Paint Sealant will be exposed to the elements and will suffer environmental damage resulting in chalking and fading.

Lifetime Warranty for new RV's
